

## Level 0:

Text appears on the screen in this style:

The text is as follows:

- You are the team of secret agents selected for this mission.
- One of our agents has lost his/her life to gather this intel.
- Our enemy nation has control over the technology to make a bomb that can consume whole cities and the technology is not nuclear. This bomb was being researched here itself in Mumbai. The location was kept secret.
- A group of terrorists have hijacked this facility and have threatened to set it off in next 7 hours.
- Your mission is to locate this bomb and defuse it before it goes off.
- Press the button to accept the mission
- There will be a button with label "Accept" with same font as the pic.

## Level 1:

### The sign in level

Following is the text that will appear

- The below button will take you to our intelligence website.
- You need to hack the website to get through it because our website is now in their control.
- The Agent Id has been provided to you (Team ID)
- Button with label "Hack" or "Go" or anything

**The sign in page appears and all that inspect and stuff is done. The password is hidden is main.js file. It's a long random string .**

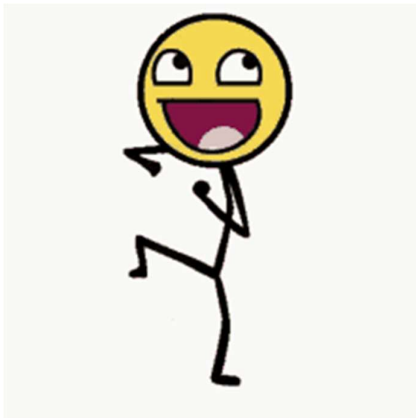

### Screen Appears:

Following is the text that will appear with a stickman gif. I was gonna go for a voice but no speakers.

The text will be as follows:

- You puny minded (trying to control the profanity here) people fell for my little trick.
- Hahahaha!! You guys just logged in and gave me access to the bomb.
- But I am not your regular everyday normal terrorist. I am kinda different.
- I am going to play a game. I will give you a chance to save your beloved city.
- You have 6 hours (same rate thing) and you have to find the location of the bomb and code to dismantle it.
- Your mission shall you hahahahahahahahaha %\$^8\*(\_84&%\$#@R()\*(&\$
- A button appears with 7 hours timer going on below
- Label is "Ready"

This can be the stickman gif bcos the terrorist is a psychopath.

### Level 2:

- The floating button level.
- The title is "Wanna know a secret"
- The hint is "Warm and cold" as made by you guys
- And the Button will stop at point changing its color.

### Level 3:

The text will be already written on this screen and there will be four boxes below it to be filled and there's a submit button and there is a timer set to x mins (idk) which is running.

The text is:

- I have planted bombs in 4 local trains
- The bombs will go off as the timer finishes
- You have to decode the 6-digit local train numbers and input them in those boxes
- The codes are given in the placeholder of the input boxes
- Tik Tok Tik Tok Tik Tok.....

**The decoding of the codes will be done by converting the characters of the code to their ASCII values and acquiring the four 6-digit local train numbers. Online converters can be used.**

### After you Pass level 3:

The stickman animation will be decided.

Text:

- 🙌🙌🙌 I see you are very good at it, I am impressed
- You saved those people but you know they still are in danger
- I still have the button in my hand and the clock is still ticking
- Ready for the next level?
- A “Yes” labelled button.

### Level 4:

Text will be already displayed on the screen in the empty space on the right.

Text:

- I have sent my detective at a location in Mumbai with an intel.
- Do I know the location? No. Do you know the location? No.
- Who will find it? You.

Now this is that enter X and Y co-ordinate one level.

### Level 5:

There are 4 buttons below the screen. North West South East

Text:

- The intel acquired is as follows:
- The bomb lies in this part of Bombay.
- Key is “draw a line of peace”
- Message: 🐘🐘🐘🐘🐘🐘🐘🐘
- Clicking on the wrong button will lead to reduction in time by x units (It must significant so that they don't brute force it)

### Level 6:

Text:

- Solve it. This will help you in future.
- The time is ticking....

Then there is whole crossword solving thing.

### Level 7

All the words in the crossword will be displayed in line such that their initials form PIGPEN CIPHER.

The word “SPIT” is given in pigpen cipher.

Text:

- The clue is: All that INITIATES well ends well

- The code consists the location of the bomb
- Find it and save your city, hahahahaah
- AhahahaahahahahahaAHAHAAAH
- Use the internet

### **A screen appears:**

Text:

- Congratulations!! You made it till here!!
- But now is the real test
- First let me tell you something, this facility was made by DRDO. It was made in a college where it cannot be suspected.
- This college had a very big area surrounding it. So we built an underground facility
- We started working on a bomb which was not nuclear but can cause big damage
- I was the head of the project. The project was completed
- But then soon government realized that the bomb was too dangerous for the world so they abandoned the project. The whole facility was locked forever and my life's work was taken from me
- From that day itself I have sworn to take the revenge
- So I hacked into the intelligence system and got the access to the basement
- Now tell me can you decode the bomb?
- "Yes" labelled button

### **Bomb Defusing level**

- Easy, medium and hard
- Inspired by Keep talking and nobody blows
